

Ohio Display Advertising Network

Special advertising networks are simple and affordable.

We have aggregated newspapers into a convenient and easy-to-use network program, saving advertisers time and money. With a single call or email, your message can be placed into local media outlets all across the state or country!

How it works:

The Ohio Display Advertising Network consists of newspapers with a **total combined readership of over 2 million.**

All the newspapers participating in the network agree to publish all network ads once during the desired week. The newspapers are prohibited from placing the ad in the back of the classified section.

You place a single order and make just one payment. No other display ad buy is easier or more efficient.

AdOhio networks always delivers extra savings.

Each of our networks have real cost savings built in. Beyond the time efficiency gained with our "one order/multiple markets" service, statewide advertising is priced to reflect **savings up to 85%.**
